

Fall-Risk Environment Checklist

Observe the resident environment and record practical controls for routes, lighting, equipment, and assistance.

- ☐ Walking route is clear of clutter, cords, loose rugs, and unstable furniture.
- ☐ Floor transitions are even and visually understandable.
- ☐ Lighting is adequate between bed, bathroom, dining, and common areas.
- ☐ Bathroom has appropriate grab bars, non-slip surfaces, and accessible supplies.
- ☐ Bed, chair, toilet, walker, and wheelchair fit the resident current abilities.
- ☐ Footwear and clothing do not create avoidable trip hazards.
- ☐ Toileting and assistance routines address predictable high-risk periods.
- ☐ Call device or assistance method is available and understood.
- ☐ Post-fall changes are reflected in the service plan and staff communication.
